JUST MESSING AROUND

FUN FACTS :

Canadians consume more kraft dinner and have more donut shops than any other nation.

Cats have fewer toes on their back paws than front .

Like most four-legged mammals, they have five toes on the front, but their back paws [only have four toes](#). Scientists think the four-toe back paws might help them run faster.

Klennex tissues were originally intended for gas masks. When there was a cotton shortage during World War I, Kimberly-Clark developed a thin, flat cotton substitute that the army tried to use as a filter in gas masks. The war ended before scientists perfected the material for gas masks, so the company [redeveloped](#) it to be smoother and softer, then marketed Kleenex as facial tissue instead.

LIBRARY NEWS

On Thursday, May 14th the Modified Van Run:

Pandemic Plan was put in place for Mundare Municipal Public Library. All items received were quarantined for 3 days. On Tuesday, May 19th patrons who had items in the van run were notified, by telephone. A schedule was established and patrons were given a pick up time. The curbside pick up was a huge success. All items have been delivered to patrons.

At this time, the majority of libraries remain closed in Polaris across TRAC. Holds are still not opened up across all libraries as resource sharing across the province is not in effect yet (awaiting Phase 2). This means that library managers are not getting new item requests. In effect, we are not fulfilling holds or moving requested items between communities. The van run is in place so that items can be returned to the owning library. This will avoid an avalanche of books when the library is re-opened.

In the ever changing world of COVID-19, curbside

pickup is currently suspended. Books are available, for purchase by donation, in the foyer of the Mundare Town Office, during office hours. Funds raised are in support of your local library. Please enjoy the books, but do not return them to the book sales table. All items received by the library must be quarantined for 3 days.

The Mundare Library Board can choose whether or not to re-open to the public when Provincial restrictions are lifted in Stage Two and the Board can choose what services to offer at that time. Planning is currently underway for re-opening when it is permitted-following protocols for COVID-19 as put forward by the Government of Alberta.

MUNDARE SCHOOL

It has been a very different time for us all. Students are busy learning, but not at school. It has been great to see everybody engaged in learning on this new platform.

We miss seeing our kids every day and hearing all about their many adventures and successes outside of school.

We get to see each other in the virtual world, but we wait in anticipation for school life to return to our regular routine.

At the end of June, we will be organizing a textbook and school supplies return day for each class. More complete information will be coming in the school newsletter. As you complete your

spring cleaning at home, please put these school materials aside so that they can be returned.

We also have some extra reading books that are bagged and need a new home.

Please help yourself to them, as well. They are at the main entry of the school (outside). The Mundare School staff hope that everyone is doing well.

All the best to you and stay healthy!!

If you are able, please consider donating to the Lamont County Food Bank to help those in need during this time.
